

StarTox™ 5

a qualitative urine screen for drugs of abuse

The FDA Approved StarTox 5 Drugs of Abuse Screening Test offers the latest technology in on-site, qualitative, rapid drug-testing with a 99% efficacy rating

product information

Part #	Description	Color	Capacity	Case Pack	Packaging
P02-STX501	StarTox 5	Translucent	*includes min. & max. fill lines	25	Individual Foil Bag

**minimum fill line is approximately 20 ml, maximum fill line is approximately 45 ml*

Kit contains all components to test and transport a positive specimen, including: tamper proof bottle seal, double-pouched transport bag and absorbent strip.

The increase in the recreational use of drugs of abuse in the general population and in the workplace has prompted the need for a rapid, simple and tamper-proof screening test. StarTox 5 is a competitive immunoassay utilizing highly specific reactions between antibodies and antigens for the simultaneous detection of:

- Amphetamine (AMP)
- Opiates (OPI)
- Phencyclidine (PCP)
- Cocaine (COC)
- Cannabinoids (THC)

features & benefits

Rapid, reliable results within 5 - 7 minutes

- Faster results and quicker decisions with on-site testing
- Eliminates downtime, employer can quickly decide proper course of action depending on test result

Innovative Design

- Controls test activation by a simple turn of the dial

Closed System

- No contact with the specimen
- No risk of contamination

Tamper-Proof

- Sealed device can not be compromised
- Ensures tamper-proof transport to a confirmation facility

Easy to read

- Results clearly visible in test window

Technical Assistance

- Available toll-free, 24 hours a day, 7 days a week at 1.866.214.9124

Complete Transportation System

- Kit contains all components to test and transport a positive specimen, including, tamper proof bottle seal, double-pouched transport bag and absorbent strip

Foil Packaging

- Maintains optimum performance for up to 18 months

StarTox 5, in the sealed foil pouch, should be stored at 15°C - 30°C (59°F - 86°F)
